**CITIZENS SIGN FOR
BIG CHAUTAUQUA TO
SHOW AT PAHOKEE**

Application Given To Representative of Redpath Bureau

PROBABLE DATE IS
EARLY NEXT SPRING

Entertainment and Instruc-
tion For People of All

Upper Everglades

A place on the Redpath Chauauqua circuit is being sought for Pahokee and as the application probably will be accepted, the res-

A representative of the Redpath Bureau came to Pahokee this week on invitation from the pub-

number of The Everglades New
and in one day had interviews with
number of citizens and the in-
terviews had such outcome that a
contract was signed and has been
forwarded to the office of the
Edpath Bureau for approval.
An application a year in ad-

... was necessary to secure in
... of Pahoehoe in the circuit
... because the benefits of Chautau
... can be obtained through ability
... move the tent and seats short
... distances and save transportation
... the lecturers and entertainers
... the schedules of dates being made

The Chautauqua is an established feature at Arcadia, where for several years it has drawn visitors to the town, and a Chautauqua was held this week at Stuart; it is annually a big event at that place.

... annually a big event at Tallahassee, and is held at several other places in Florida. The programs are rendered in a big tent furnished by the Redpath Bureau. Chautauqua programs are made up by the local committee from a long list of "talent" supplied by

reputable Bureau and usually consists of lectures by distinguished men, musical entertainments artists of high reput and shows a popular character. The program for Pahokee will take into consideration local preferences as entertainers and their presenta-

There are usually three programs a day—forenoon, afternoon and evening.

The late W. J. Bryan was a native-born lecturer for many years, and that is the profession of his daughter, Ruth Bryan Owen, who is now a representative in congress.

the fourth Florida district. Robert M. LaFollette, senator from Wisconsin for many years, gained his fame chiefly as a muckraker and lecturer. Effort is made to make the programs attractive to men, women and children.

is the practice for tickets to
sold for the entire Chautauqua
course of four, five or six days.

Around The Lake

at Lakesport they are in favor

the debate on "Resolved, Capital punishment is wrong and should be abolished."

...the colored section of Belle
...in order that the colored
...may also enjoy this game.

HOWARD SHARP, Publisher

NOT \$33.95 PER CAPITA

The correspondent at Tallahassee for the Associated Press makes himself dizzy when he undertakes a problem in arithmetic. Listen to him: Reporting that so many millions of gallons of gasoline were used in a certain period, he writes:

"During the year, the motor vehicle department reported total motor vehicle registrations of all kinds of gas propelled vehicles at 361,076.

"The process of division, therefore, revealed that an average of a little over 622 gallons of gasoline was used during the year in operating each motor vehicle in the state, and that the approximate per capita payment of the gas tax by motor vehicle operators of the state was \$33.95."

He doesn't know what he is talking about. Not all of the gasoline was used by "gas propelled vehicles registered with the motor vehicle department," so some subtracting is to be done before the grand total is arrived at.

Up in Leon county where ox-propelled vehicles are to be seen, there may not be any Fordson tractors, so the correspondent for the Associated Press at Tallahassee may be excused for not knowing that a good deal of taxed gasoline is used in internal combustion engines of tractors and farm machinery, so we are telling him that a good deal of gasoline is so used.

Taxed gasoline is also used in boats on streams, lake and the ocean and the motor vehicle registration department has no record of that, and them.

Therefore the "approximate per capita payment of the gas tax by motor vehicle operators of the state" is not \$33.95. The Associated Press correspondent at Tallahassee so often tells his personal preferences and opinions influence his stories as to open all of them to suspicion.

THE LAND BARONS' REBELLION

From Madison Enterprise-Recorder.
Comes an interesting letter in Wednesday's mail from W. E. Cochran of Jacksonville relative to

the landowners' meeting held in that city Monday. We will say this for Mr. Cochran that he has made a clean show of things and does not seem to be trying to put anything over anybody, without telling us about it, at least.

Five million acres of land are said to have been represented at the meeting and after five hours discussion, with only one dissenting vote, the following statement was adopted: "That it would be futile, and poor business judgment in our county to pay the State and County taxes assessed against our properties for the years 1929 and 1930 until some action is taken by the taxing authorities offering relief for future years."

If the landowners, following the procedure as embodied in the statement adopted, should not pay their taxes, then they should be treated just as anybody else is, have their property sold for its taxes. That would be the logical thing to do, still that does not solve the problem. We wonder some what whether they really have availed themselves of the opportunities already at hand.

They certainly have recourse to the various assessors and if they feel their property is taxed out of proportion to other property, can argue their side of the question with the assessors. If the assessors think they are in line, then they have recourse to the boards of county commissioners as equalizing there, and if they get not an adjustment of their situation to the courts.

It would seem if the assessors, the boards of county commissioners and the courts should all turn them down, then their contention would not be well grounded. Perhaps they do not approve of their attitude in, in effect, calling a general large landowners' strike.

For intelligently penetrating comment, Trends of the Times printed in the Miami Daily News daily is the best thing of the kind. It is far better than Brisbane's.

A DEFENSE OF MIAMI GAMBLING

The Miami Herald.

The following paragraph is no wild flight of a diseased mind, as the reader might well imagine. It is an editorial expression, stamped with the imprimatur of sincerity, which appeared in yesterday's issue of The Miami Post, published by Redmond B. Gaultier, who is still sitting as a city commissioner of the city of Miami.

"The little dust-up in the gambling situation has caused many residents of Miami to think in terms of the 'business' of the city. There are several local gamblers who employ the home boys and the home girls to keep the family alive on the pay roll. The staff, as a rule, had had a very poor sort of time during the summer trying to earn enough money to keep the family alive on the pay roll and the grocery bill on the right side of the ledger. When the gambling houses are dark these employees have to sit at home and do nothing or hunt up another job. As jobs are scarce they mostly sit at home. The wife and kids don't eat so regularly and the wife has to carry another bill on the cut. ... The kids don't get milk and the grocer doesn't collect on the canned goods."

And next week, perhaps, Mr. Gaultier will publish an appeal for the poor bootlegger, the harried householder and our increasing aggregation of stick-up men.

THE EVERGLADES NEWS, CANAL POINT, FLORIDA

ESTIMATING TOO HIGH

Five thousand acres more map beans will be planted in Florida this spring than in the year of the highest previous acreage, according to estimate of the U. S. Department of Agriculture and published in a bulletin dated February 17. The intended plantings for the spring of 1930 is reported as 22,300 acres, whereas the acreage in 1929 was 16,520 acres and in 1928 16,760 acres and in 1927 14,990. The Department says.

Growers in the upper Everglades and buyers and brokers who try to keep informed on conditions all over the state do not accept this estimate of a probable increase of 5,800 acres of early snap beans in Florida.

The Canal Point-Pahokee and Belle Glade-South Bay districts are the largest bean growing sections in Florida and Florida is the biggest producer of early spring beans in the country. There is no evidence that the plantings in the upper Everglades will be even 500 acres more than in the highest previous year. That would have 5,000 acres to be planted elsewhere in Florida this spring, and it certainly will not be done in Broward, Dade, Martin, Glades and Okechobee counties.

North of these counties the crop gets out of listing as early spring. The Department estimate probably will be revised for Florida.

Lake 3 Feet Too High, St. Lucie Is Opened

From Okechobee News.

As a result of the rising waters in the Kissimmee river and the continued rise of the water level in Lake Okechobee the locks in St. Lucie canal were opened Monday by order of resident authorities of Everglades drainage district. Recent heavy rains in the Kissimmee are unusual and abnormal for this season of the year. The lake is nearly 10-foot level, which is nearly three feet higher than at the same period a year ago.

WHAT PEOPLE SAY

An Okechobee minister says in his home town paper: "People of every creed, color and nationality will read, try to understand, and sometimes actually believe, an advertisement; while only a few of the best people attend truthful preaching and worship of the Eternal with willingness to heed the precepts there spoken."

ALONG THE RIDGE

Weeds have been cleared from the foundation near the Canal Point school house where L. L. Davis started a hotel three years ago.

Few houses are being built but all along the ridge repairs are being made to dwellings.

Little by little but steadily the houses on the ridge are being painted and the grounds improved in appearance.

Land on the lake side of the road is being cleared in spots for patches of vegetables.

Growers in the upper Everglades and buyers and brokers who try to keep informed on conditions all over the state do not accept this estimate of a probable increase of 5,800 acres of early snap beans in Florida.

The Canal Point-Pahokee and Belle Glade-South Bay districts are the largest bean growing sections in Florida and Florida is the biggest producer of early spring beans in the country. That would have 5,000 acres to be planted elsewhere in Florida this spring, and it certainly will not be done in Broward, Dade, Martin, Glades and Okechobee counties.

North of these counties the crop gets out of listing as early spring. The Department estimate probably will be revised for Florida.

Growers in the upper Everglades and buyers and brokers who try to keep informed on conditions all over the state do not accept this estimate of a probable increase of 5,800 acres of early snap beans in Florida.

The Canal Point-Pahokee and Belle Glade-South Bay districts are the largest bean growing sections in Florida and Florida is the biggest producer of early spring beans in the country. There is no evidence that the plantings in the upper Everglades will be even 500 acres more than in the highest previous year. That would have 5,000 acres to be planted elsewhere in Florida this spring, and it certainly will not be done in Broward, Dade, Martin, Glades and Okechobee counties.

Bank of Canal Point

CANAL POINT

Gustav Wouters of Detroit, a brother of E. L. Wouters, and other relatives from Detroit, visited here last week.

Water hydrants are spreading fast in West Palm Beach canal. Washington's birthday was observed in Canal Point by the closing of the bank and by some social affairs in the evening.

County forces have repaired the foot bridge on the north side of the canal, where the foundations were washed out a month ago.

The Southern Sugar Company is having the canal bank cleared of weeds, the lots and parking spaces have been incised over. Not much of the cane close to town has been cut. The company is harvesting first the cane points where frost may catch it.

Hugo Box is back in Canal Point after a few weeks in Clewiston where he ran a camp kitchen.

NEGRO EXTORTION

P. B. Times, Feb. 22.

Fingering left by a burglar as he broke into a store at Canal Point recently, resulted in conviction of James Thomas, negro, yesterday in criminal court, on a charge of breaking and entering. Photographs of the fingerprints left on a window of the store were identified as reproductions of prints left by Thomas, through comparing them with prints taken of his fingers after he was arrested. The jury returned a verdict of guilty and the court sentenced Thomas to a year in the penitentiary. The photographs and prints were taken by J. W. Ladd, head of the county bureau of identification.

BIRTHS

Mr. and Mrs. J. W. Strickland of Canal Point announce the birth of a boy on Saturday, Feb. 22.

Mr. and Mrs. Alton Williams of Canal Point announce the birth of a girl on Monday, Feb. 21, who has been given the name Trilby Celeste.

Mr. and Mrs. Warren DeLoach of Palmyra announce the birth of a boy, born on Saturday, Feb. 22.

M. E. CHURCH NOTES

Sunday school 9:45 a. m.

Praying services 11 a. m. and 7:30 p. m.

Rev. J. D. Young will have charge of the church services until annual conference.

The annual meeting of the Ladies Aid will be held Tuesday afternoon at the home of Mrs. Bergen when election of officers will be held.

CONGREGATIONAL RELATIVES

INSPIRED PROPERTIES

Mr. Andrews, son-in-law of the late W. J. Connors, and Mr. McLaughlin, formerly Mr. Connors' secretary, spent several days in Florida looking after matters relative to the property of the estate. They conferred in Miami with other interested in freeing Connors' highway of tolls.

Rev. J. S. Young of DeSoto, Fla., who is spending the winter at Lake Worth, preached in the Methodist church here last Sunday. Rev. Young is a member of the DeSoto conference and for many years has held some of the best churches in that state. He is in Florida for his wife's health and is preaching weekly here. Those who heard him last Sunday morning can judge of his ability as a public speaker. He will fill the pulpit at Canal Point until conference.

STADNICK'S MARKET CANAL POINT

COMMUNITY GOSSIP

In the barber shops and pool halls, where from the frank conversation of the customers (and leaders) you get the "low-down" on what's going on, the talk is that the sugar company is coming out all right on its common labor deal. The scam has been laid off, the rift-ruff has gotten the wrinkles out of their stomachs and have wandered on and the laborers who are willing to work, are working and are making good money now that they have gotten the hang of the job of cutting cane. Colored men who stuck to the job after all and that the wages are up to the average.

An Everglade was served with a mug of coffee at a West Palm Beach restaurant. Noting there was no sugar he said, "I got my coffee all right but I got nothing to drink it out of."

To a man who wanted something to eat, Baker, the newspaper, offered a copy of the "Country Gentleman." "No," the customer said, "I'd rather have the City Slicker."

May be this ought to be saved for the Woman's Club edition of the paper. Two immortal characters in American history have not been correctly represented in song and story and I'm here to set things right. "A Canal Point back-packer" said this week, "I refer," he said, "to the can-opener and the glorious womanhood of this nation. It has been said," he said, "that the can-opener has been responsible for the liberation of women from cooking and dish-washing, thereby bringing improvement in government and bridge building, and golf score. This is wrong and I'll prove it to you. It is the woman who has reflected credit on the can-opener and built up the canning business. It has been said," he said, "that the can-opener has liberated, emancipated, freed and delivered from bondage," he said, "It is to men. Thanks to the can-opener a man doesn't have to get married to get a good boarding house."

C. P. HIGH SCHOOL

We have new editors now just fine. Mrs. Gooding appoints Grace Mahan as the news editor and Beven Fritzsche as the joke editor. The staff is to be different from that of last semester in that these two new editors are appointed for special purposes. The others in the class will serve when asked to write up articles for the paper. We think this is an improvement over the arrangement of last semester, for now everyone has a chance to work on the staff while before certain ones served all the time.

Margaret Jones

NOTICE OF ADMINISTRATION

Notice is hereby given, to all whom it may concern, that on the 18th day of April, A. D. 1930, I shall apply to the Honorable Circuit Court, as Judge of Probate, for my final discharge as administrator of the estate of John H. Snyder, deceased, and that at the same time I will present my final account of administration of the estate of said estate, and for their approval.

Dated, February 11th, A. D. 1930.

WILLIAM H. SNYDER, Administrator of the estate of John H. Snyder, deceased.

CALLERS

Harry Dietz, the West Palm Beach hotel man, spent several days in the upper Glades recently obtaining signatures to a statement on the Ocean boulevard election proposition.

H. S. McLeod of St. Augustine visited the Lake Okechobee region this week to keep in touch with development. He is the agricultural agent of the F. E. C. railroad.

J. F. Lytle of West Palm Beach, head of the furniture house, looked over the upper Glades this week, which he has long been interested, as he comes from the Louisiana sugar country. His firm lately has delivered some good orders for house furnishings at Pahokee.

J. L. Grier, supervisor of registration, was here yesterday for official business.

Who's Thrifty? THE SMART

Isaac Newton saw an apple fall . . . and it dawned on him that he had observed a tremendous natural force at work. Fact is . . . the force had always been at work . . . and always will be.

In buying furniture there is a natural law which keeps observers always observed . . . and observation is always profitable.

These "Isaac Newtons" who are buying new things for their homes have found that good furniture, well built, styled right, priced consistently and properly presented . . . is the only furniture worthy of ownership.

TIME and USAGE . . . with their inevitable tests . . . should enhance the value of the household equipment you purchase . . . not destroy it.

Our forefathers HAD TO BE thrifty . . . so they were just NATURALLY SMART. The furniture with which they furnished their homes many decades ago . . . is worth more today than it was when new . . . many times more.

... and this brings up the thought

THE ITCH PARASITE AND THE TROPICS

Where freckles never occur there lives certain low types of vegetable and animal life. These parasites depend on their existence on warmth and moisture. The living times of man and lower animals provide the parasites with the life and moisture. Here they show their presence in various ways.

The Itch Parasite is first in importance and shows in Ringworm, Itch, Scabies, and other tropical diseases. These often become infectious, spreading on homes and mules. Sore Head and Sore Foot are types among animals.

All yield to the same treatment. Apply the Itch Medicine applied, quickly dries and requires no dressing. Over the Parasite is eliminated a healthy skin forms and the sores rapidly heal.

Fifty cents at all drugists or sent direct by mail on receipt of price.

Manufactured by A. N. APLER, 1906 N. W. 36 St. Miami Fla.

Send for our interesting Book, "The Itch Parasite and the Tropics."

NEWS FROM AROUND THE BIG LAKE

SOUTH BAY

The Ladies Aid of the Community church sponsored an entertainment Friday, Feb. 21 at the auditorium of the school house which was largely attended and greatly enjoyed by the audience. The ladies made about \$30 clear on the evening's entertainment which they will probably apply on the minister's salary.

The Boy Scouts troop enjoyed a hike down the North New River canal Monday evening, starting at 8 o'clock to 5 in the afternoon. Several miles down the canal they halted for supper and building a fire to toast marshmallows and eat their sandwiches. The meal edged with toasted marshmallows. Those taking the hike were Mr. Kocher, Dale Pank, Willie Boats, Raymond Crocker, Children Barton, Verne Boats, Valpey Barton, Harold Hawkins and Floyd Wilder.

Mr. and Mrs. W. C. Allen and family, accompanied by the Hardy Vix, motored to Clewiston Sunday afternoon for a pleasure trip and on their return called at the Walton home in Bare Beach, Mrs. Walton was kind enough to present Mrs. Allen with some cuttings of shrubs for the beautification of her home grounds.

Mr. V. C. Denton was a guest of the Pahokee Home Demonstration Club last Wednesday afternoon.

Mrs. W. H. Hawley and daughter Betty motored to West Palm Beach on Saturday. Wee Clifford Allen, son of Mr. and Mrs. W. C. Allen celebrated his third birthday Sunday by giving a party for seventeen of his little friends. Games were the order of the hour and light refreshments were served at an appropriate time. Clifford was the recipient of many delightful and acceptable gifts in honor of the occasion.

Mrs. Russell Fisher made a trip to West Palm Beach Saturday.

Mrs. C. E. Forbes is now keeping house for her husband, brother and father on Rittia Island while Mrs. E. Forbes is present in South Bay for the present. The Baptist church held regular morning worship last Sunday morning and had an excellent attendance. There will also be service next Sunday morning at 11 o'clock. Everybody is cordially invited to attend.

E. Harris Drew accompanied by his wife, mother, sister and several friends motored out from West Palm Beach Sunday for a trip to Rittia Island, where Mr. Drew is interested in some farming operations.

The Epworth League of the Community church will meet as usual on Friday evening at the school house. Every young person in the community is cordially invited to be present and take part. J. C. Twyman, representing L. Maxcy, Inc., of Frostproof, was in this vicinity last week securing contracts from the various growers for the handling of the season's crop in a new packing house to be erected on the property. Mr. Twyman was accompanied by Tom Decker.

On Wednesday evening at the home of Mr. and Mrs. George Albert, a very charming bridge party was held. The prize of the evening was carried off by Mrs. E. E.

BELLE GLADE

Monday, Feb. 17, was Mrs. Margaret Baader's birthday and her daughter, Mrs. Lawrence Bessant, prepared an elaborate dinner in honor of the occasion. Covers were laid for the immediate family and the guests of honor and Wilton Wines and Dick LaFleur.

On Feb. 19 the regular monthly meeting of the Woman's Club was held at the home of Mrs. E. N. Brown with the following members present: Miss Alice Reed, Mesdames Walter Greer, L. T. Walters, L. T. Creech, J. Allen Brown, W. W. Miller, A. M. Webster, Lawrence Bessant, J. P. Eggleston and Creech were chosen as a committee to make recommendations for a site upon which the club plans to begin the erection of a clubhouse in the near future. It was voted to lend the twenty-two volume set of Encyclopaedia Britannica from the club library to the school until the close of the term.

Miss Geraldine Barlow has been absent from school nearly all week on account of illness. Mrs. L. T. Walters is to leave West Friday to attend to some business matters. Mrs. W. H. Hawley and daughter Betty motored to West Palm Beach on Saturday.

Wee Clifford Allen, son of Mr. and Mrs. W. C. Allen celebrated his third birthday Sunday by giving a party for seventeen of his little friends. Games were the order of the hour and light refreshments were served at an appropriate time. Clifford was the recipient of many delightful and acceptable gifts in honor of the occasion.

Mrs. Russell Fisher made a trip to West Palm Beach Saturday.

Mrs. C. E. Forbes is now keeping house for her husband, brother and father on Rittia Island while Mrs. E. Forbes is present in South Bay for the present. The Baptist church held regular morning worship last Sunday morning and had an excellent attendance. There will also be service next Sunday morning at 11 o'clock. Mr. Twyman was accompanied by Tom Decker.

On Wednesday evening at the home of Mr. and Mrs. George Albert, a very charming bridge party was held. The prize of the evening was carried off by Mrs. E. E.

OKEELANTA

Feb. 21, Little has transpired in our vicinity during the last two weeks. Everybody is kept busy planting or picking beans. The Okeelanta have been shipping beans for a while now, and they are satisfied with the price received.

A car bearing a Virginia license and a special tag, showing that the longest bridge in the world, Newport News, had been crossed by the five occupants, Mr. and Mrs. John Messick, their son and daughter, and their sister, Pearl. The party stopped overnight at our local hotel, returning the following day by way of the west coast to their home at Hampton, Va. It is the expectation of the family to pay the Glades another visit.

Since the serious illness of their grandmother, Mrs. Anjuma, two grandsons, Ben and John, the boys employed on the bridge in Florida, have made a number of visits to her bedside. The condition of Mrs. Anjuma is a great improvement, and it is expected that she will be able to return to her home in Florida.

C. E. Lindahl, who has shown moving pictures in the different communities around the lake was in Okeelanta for a number of days.

Oregon, Ill., was represented recently by Samuel Postponen, wife and husband. The two motored to our town to locate a tract of four miles south of the Belles canal which in years past was filled and occupied by a building. The end of the trail was reached, however, when their car struck the Belles canal, finding a high spot they lifted up their eyes, "wondering southward" their wondering ended. One question an- swering one, even to a mile time.

The city council has asked for plans and specifications for the municipal water plant to be presented at the regular meeting of March 5.

A committee consisting of Mrs. W. W. Miller and Rev. J. R. Huch motored to Canal Point Saturday and considered plans for the new church which is to be built soon.

The children of the community appreciated the vacation granted Tuesday and the following took advantage of the opportunity to attend the fair: Margie Harris, Odelle Harris, John Greer, Wenzel Harris, Tommy Parker, Elizabeth Brodgen, the Stallings boys, John Hoch, Margaret Hoover, Clara Belle Morris and Laverne Parker.

COMMUNITY M. E. CHURCH

Belle Glade Sunday school 9:45 a. m. Worship, 7:30 p. m. South Bay

Worship 9:45 a. m. Sunday school 11 a. m. Epworth League Friday 7:30 p. m.

The pastor of the Community church is delivering a series of sermons on the general theme "Jesus as Judged by His Enemies." Next Sunday evening the subject is "A Grave Charge."

JOHN R. HOCH, Pastor.

PEOPLE WE KNOW

Frank Lockmiller, who has been manager of the community at South Bay, has been promoted to a similar position in the community at Clewiston.

T. H. Monk, manager of the International Harvester Company branch at Miami spent a couple of days in South Bay and vicinity.
